4

Section

☐ A

☐ B

☐ C

☐ D

☐ E

5

Choose the correct option. Logical Ability:

Problem Question:

Four people—A, B, C, and D—are sitting in a row. **Who is sitting at the extreme right?**

Statements:

1. C is to the left of D.

2. B is to the left of A.

*  (1 Point)

- ☐ Statement I alone is sufficient to answer the problem question.
- ☐ Statement II alone is sufficient to answer the problem question.
- ☐ Both statements put together are sufficient to answer the problem question.
- ☐ Both the statements even put together are not sufficient to answer the problem question.

6

Sandra is standing at point X facing east. • She walks 30 yards toward her right and takes a left turn to walk 40 yards. • She then takes another left turn and walks 50 yards.

*  (1 Point)

Choose the correct option. Logical Ability:
In which direction is she standing from point X?

- ☐ Northeast
- ☐ North
- ☐ Northwest
- ☐ West

7

Choose the correct option. Logical Ability:

The world production of sugar has been reported to be very scarce as compared to the global sales for four years. The demand for sugar is extremely high but the supply has been low for quite some time now. This could be because of the awful weather and also because some chief sugar growers have switched to high-priced jute. The price of sugar has soared in response to the phenomena of the demand-supply disparity. The price of sugar now equals that of jute.  (1 Point)

- ☐ Sugar production is profitable only when the price of sugar is as high as that of jute.
- ☐ The sugar growers who had shifted to the higher priced jute will now move back to producing sugar.
- ☐ The demand for jute was higher than the demand for sugar, which made sugar growers shift their production.
- ☐ If there continues to be a decline in the production of sugar, the price of sugar may even exceed that of jute.

8

*  (1 Point)

The delivery charges for goods bought from ABC Company are decided according to the following procedure. The customers

- are divided into two categories
 - those who have a sales region code of 10 or above
 - those who have a sales region code of less than 10:
- must have bought goods worth \$500 or more in the previous month:
- must not have benefited of any other similar company;
- must not have been provided bulk discount before;
- must have been provided a special discount of 15% or less than that in the previous dealings;
- must have regularly ordered for more than three years. However, if the customer
 - fulfills all the conditions except (2), and if the sales region code is less than 10, delivery charges of \$10 would be levied. Delivery charges of \$8 would be levied for a code more than 10
 - fulfills all the conditions except (3), and if the sales region code is less than 10, delivery charges of \$5 would be levied. Delivery charges of \$12 would be levied for a code more than 10
 - does not fulfill two or more of the conditions stated above, then s/he would have to pay delivery charges of \$30 regardless of the sales region code.

Does the customer need to pay delivery charges? (The case is presented on July 12, 2011.)

There are two cases based on the given set of conditions. Take a decision for both the cases and choose the correct option for each.

Logical Ability: Irma is a customer whose sales region code is 08. She has been regularly ordering goods from ABC company for more than four years. She has also purchased goods worth \$100 in the previous month. She has never been provided any bulk discount, but has been given a special discount of 2%. Additionally, she has benefited of another similar company.

- ☐ The customer need not pay any delivery charges.
- ☐ The customer would have to pay \$30 as delivery charges
- ☐ The customer would have to pay \$12 as delivery charges
- ☐ Insufficient data

9

Choose the correct option. Logical Ability: From the given options, three are similar to each other because they follow the same pattern. Identify the option that is dissimilar to the other three. *  (1 Point)

☐ 10

☐ 30

☐ 65

☐ 128

10

Analyze the given word pattern and choose the correct option. Logical Ability: If DICE is coded as 3824, then what is the code for EDGE?

* ☐ (1 Point)

☐ 5485

☐ 4364

☐ 5475

☐ 4374

11

Choose the correct one. * ☐ (1 Point)

Choose the correct option.

GIT: Which of the following statements is/are true about **git reset**?

1. **git reset** is working-directory safe, preventing data loss.
2. **git reset [branch]** will move the branch that **HEAD** points to.
3. **git reset [branch]** will move the **HEAD** to point to a different branch.

☐ only 2

☐ only 3

☐ 1 and 3

☐ 1 and 2

12

Choose the correct option. HTML5: What will be the result of the given HTML code?

* ☐ (1 Point)

```
index.html >  figure
1 <figure src="rose.jpg" alt="flower" width="300" height="258">
2 |   <img sece="rose.jpg" alt="flower" width="100" height="128">
3 </figure>|
```

☐ An image "rose.jpg" with dimensions 100×128 will be displayed.

☐ An image "rose.jpg" with dimensions 300×258 will be displayed.

☐ Two images of "rose.jpg" will be displayed with dimensions 300×258 and 100×128 respectively.

☐ None of the images will be displayed.

13

Choose the correct option. * (1 Point)

Logical Ability: Refer to the symbols below and their corresponding meanings. The given signs denote the following operations/relationships:

- $A + B \rightarrow A$ is greater than B ($A > B$)
- $A - B \rightarrow A$ is less than B ($A < B$)
- $A \geq B \rightarrow A$ is greater than or equal to B ($A \geq B$)
- $A * B \rightarrow A$ is not equal to B ($A \neq B$)
- $A / B \rightarrow A$ is equal to B ($A = B$)

Statements:

1. $L + N$
2. N / O
3. $O - P$

Conclusions:

1. L / O
2. $N - P$

- ☐ Only conclusion I is true
- ☐ Only conclusion II is true
- ☐ Neither conclusion I nor II is true
- ☐ Both conclusions I and II are true

14

Choose the correct option. RESTful Web Services: A RESTful web service needs to use session management where the server needs to save session-related information. Which parameter needs to be sent by the client to the server via a cookie in the HTTP request header? * (1 Point)

- ☐ locksession
- ☐ sessionID
- ☐ sessionname
- ☐ profilename

15

Choose the correct option. Logical Ability: A pattern defines the relationship between the first two terms. Determine the relationship and identify the missing term of the second pair, such that both pairs are analogous. * (1 Point)

FASTER : HCUVGT
SLOWER : ?

- ☐ UMOXGT
- ☐ UNGIST
- ☐ VINDYHT
- ☐ VORYHU

16

Choose the correct option. * (1 Point)

If it is known that S is U's immediate neighbor, then who lives in the house that is immediately to the right of P's house?

Logical Ability: P, Q, R, S, T, U, and V are seven people whose houses are in a row. The houses are numbered 1 to 7 from left to right.

The following conditions apply:

1. Neither P's house nor U's house is at the ends of the row.
2. R's house is to the right of S's house.
3. T and Q live adjacent to each other.
4. V's house is among the three middle houses in the row.
5. Q's house is not adjacent to R's, but it is one of the two houses between R's and V's house.
6. S is U's immediate neighbor.

- ☐ U
- ☐ V
- ☐ S
- ☐ R

17

Choose the correct option. Logical Ability: Analyze the given number series. Identify the pattern and select the missing number.

* (1 Point)

Number Series:
4, 8, 16, 16, 64, 32, 256, 64, ?

- ☐ 512
- ☐ 1024
- ☐ 2048
- ☐ 1364

18

Choose the correct option. Logical Ability: Refer to the given terms. A pattern defines the relationship between the first two terms. Determine the relationship and identify the missing term of the second pair, such that both the pairs are analogous. *  (1 Point)

Given Pattern: ADBC : EHFG :: ILJK : ?

- ☐ KMLO
- ☐ KLMO
- ☐ MPON
- ☐ MPNO

19

Choose the correct option. *  (1 Point)

ReactJS: Which of the following statements is/are correct with respect to handling events with React elements?

1. To prevent default behavior in React, "false" cannot be returned.
2. React events are named using lowercase naming conventions.
3. Using JSX, a function is passed as a string rather than as an event handler.

- ☐ ONLY 1
- ☐ 1 and 2
- ☐ 1 and 3
- ☐ 2 and 3

20

Choose the correct option. *  (1 Point)

```
GIT: A user clones a Git repository "teamGit". He makes changes in 3 files. The output of the git status command is as follows:
shell
# modified: main/dontcommit.txt
# deleted: main/tocommit1.c
# deleted: main/tocommit2.c

The user does not wish to commit dontcommit.txt and does not want to add all the files individually. Which command will allow him to add only tocommit1.c and tocommit2.c files?
Options:
a) git add...
git rs -- main/dontcommit.txt
git commit
b) git add -u --except main/dontcommit.txt
git commit
c) git add -u --exclude main/dontcommit.txt
git commit
d) git add...
git reset -- main/dontcommit.txt
git commit
```

- ☐ b
- ☐ c
- ☐ d
- ☐ a

21

Choose the correct option. GIT: Which command will you use to display the differences between the past two commits? *  (1 Point)

- ☐ git log -2
- ☐ git log -p -2

☐ git diff HEAD~2 HEAD

☐ git diff --2

22

Git: You have to update your local master branch with the code present in remote master branch For this, you run the command "git pull origin master" but this merge conflict Which command will you run to reclean your repo? *  (1 Point)

☐ A) git clean -xfd

☐ B) git checkout HEAD

☐ C) git reset-hard

☐ D) git clean hard

23

Choose the correct option: *  (1 Point)

GIT: You need to delete a remote branch "wrongBranch", Which command should you use?

A) git push origin wrongBranch

B) git branch-delete wrongBranch

C) git branch -D origin/wrongBranch

D) git push origin -D wrongBranch

☐ B

☐ C

☐ D

☐ A

24

Choose the correct answer: *  (1 Point)

GIT: What will happen if the below steps are carried out?

- a. git clone <someRepo>
- b. Make changes to some files
- c. git add-A
- d. git commit -m "Some message"
- e. git push origin master

☐ A) Files would be successfully committed to the remote repo.

☐ B) Git would ask the user to set the username and email in the config.

☐ C) Git would throw an error: "fatal: Not a git repository (or any of the parent directories). git"

☐ D) Git would give a warning and successfully commit the files to the remote repo.

25

GIT: Which is the significant issue with Git as compared to SVN? *  (1 Point)

☐ A) Git repositories are significantly larger than equivalent Subversion ones

☐ B) Cat has leaky abstraction because we don't have a good grasp of what it does behind the scenes

☐ C) Branches are heavy weight

☐ D) Merging is difficult in Git as compared to SVN

26

GIT: A user wishes to view the files that are modified or staged. Which command should the user execute? *  (1 Point)

- ☐ git show
- ☐ git status
- ☐ git log
- ☐ git log -1

27

Choose the correct option. GIT: You want to inspect the previous commits in your repository but only see the changes made in a particular file. Which command should you use? *  (1 Point)

- ☐ git show <commit-hash> -- <file>
- ☐ git log <file>
- ☐ git diff <file>
- ☐ git blame <file>

28

Choose the correct option:

*  (1 Point)

Question 19:

You are working in a feature branch, and someone else made changes to the same file in the master branch. When you try to merge master into your branch, Git cannot automatically merge the changes. How should you handle this situation?

- A) Use git pull to fetch and merge automatically.
- B) Use git merge --no-ff to avoid a fast-forward merge.
- C) Manually resolve the conflict and commit the merge.
- D) Use git merge --squash to avoid conflicts.

- ☐ A
- ☐ C
- ☐ B
- ☐ D

29

Choose the correct option:

*  (1 Point)

You're in the middle of a merge conflict. After resolving the conflict and staging the changes, you accidentally run git reset. What should you do to fix the situation and continue with the merge?

- A) Run git merge --continue
- B) Run git commit --amend
- C) Run git rebase --continue
- D) Run git reset --merge

- ☐ B
- ☐ C
- ☐ D
- ☐ A

30

Choose the correct option:

*  (1 Point)

You have mistakenly committed a large binary file that you want to remove from Git's history. Which Git command can help you remove the file from the entire commit history?

- A) git filter-branch
- B) git rm --cached <file>
- C) git reset HEAD~1
- D) git commit --amend

☐ D

☐ C

☐ B

☐ A

31

Choose the correct option:

* ☐ (1 Point)

You have a large number of untracked files in your working directory. Which Git command will clean up these files without affecting your tracked files?

- A) git clean -f
- B) git clean -fd
- C) git clean -fdx
- D) git discard --untracked

☐ B

☐ A

☐ C

☐ D

32

Choose the correct option.

ReactJs: Which of the following JSX expressions are equivalent?

1. <MyComponent message="ABC PQR" />
2. <MyComponent message={'ABC PQR'} />
3. <MyComponent message={ABC PQR} />

* ☐ (1 Point)

☐ 1 and 2

☐ 1 and 3

☐ 2 and 3

☐ 1, 2 and 3

33

Choose the correct option.

ReactJs: In the following code, what is the most efficient way to conditionally render ComponentB only if show is true?

* ☐ (1 Point)

```
function App({ show }) {  
  return (  
    <div>  
      { /* Missing Term */ ? <ComponentB /> : null }  
    </div>  
  );  
}
```

☐ show

- ☐ {show}
- ☐ {show && <ComponentB />}
- ☐ show ? <ComponentB /> : null

34

Choose the correct option. Which lifecycle method is used in class components to catch errors during rendering, in lifecycle methods, and in constructors of the whole tree below the component? *  (1 Point)

- ☐ componentDidCatch
- ☐ componentDidMount
- ☐ getDerivedStateFromError
- ☐ componentWillUnmount
