

OUR PLATFORM

Your Ultimate Career Recommender

Discover your ideal career path with our science-backed assessment and personalized recommendations, tailored for the Indian job market.

Your Guided Path to the Right Career

Our intuitive home page guides you step-by-step through the process of finding your ideal career. Experience a smooth and insightful journey from self-discovery to tailored recommendations.

1. Take the Assessment

Answer questions to build your unique personality and happiness profile.

2. Get Instant Matches

See careers recommended based on your profile, salary, stress, and work-life balance.

3. Refine Your Priorities

Adjust sliders to dynamically re-rank careers based on what matters most to you.

4. Explore and Decide

Dive into detailed career insights and make an informed decision about your future.

Our Advanced Methodology

Enhanced Personality Assessment

24 Likert-scale questions measuring 10 key work-related traits: extroversion/introversion, detail orientation, stress tolerance, creativity, risk tolerance, leadership, flexibility, and work-life balance preferences. Plus 14 questions across 7 happiness dimensions.

Multi-Dimensional Matching

Your quiz responses are converted into both a personality profile and happiness preferences (0-100 scale). Careers are matched based on personality traits, happiness benchmarks, salary, stress, and work-life balance.

Interactive Priority Ranking

Results are dynamically re-ranked based on your priorities. Adjust 4 sliders (Stress, Salary, Work-Life Balance, Job Happiness) to see how rankings change in real-time.

<> Career Scoring Scales

Mental Stress (0-100)

Higher values indicate more stressful work environments. We invert this in scoring so lower stress is better.

Salary (LPA)

Average salary in Lakhs Per Annum based on Indian market data. Normalized to a 0-10 scale for comparison.

Work-Life Balance (0-100)

Higher values indicate better work-life balance, considering flexible hours, remote options, and typical work schedules.

Job Happiness (0-100)

Personalized score comparing your happiness preferences against each career's benchmarks across 7 dimensions: compensation, job security, work-life balance, growth, environment, autonomy, and recognition.

✦ The 7 Dimensions of Job Happiness

Our Job Happiness Index measures how well a career aligns with what matters most to you:

Compensation
Fair pay and earning potential

Job Security
Stability and long-term prospects

Work-Life Balance
Boundaries and flexibility

Growth & Learning
Skill development and advancement

Work Environment
Culture and value alignment

Autonomy & Control
Independence and decision-making

Recognition & Relationships
Appreciation and connections
